Dear Mr. Kirkmyer:

ORIGINAL
(Red)

This letter is a supplement to one I sent to you on September 23, 1980 to clarify one point. In that letter I stated that there would be no difficulty in your sending in a Part A application for your facility at a location other than the one in your August 1980 notification, assuming that you moved to that location prior to November 19, 1980. I want to point out, though, that if you did not move to a new location, your notification and Part A application for your present location are effective for only that location.

If at some time after November 19, 1980 you change locations, this new location will be considered a "new facility" rather than an "existing facility". Under the regulations currently in effect, the construction or operation of a new facility is prohibited until such time as EPA issues a permit to the facility.

If you have further questions, please contact me at the above address or at (215) 597-8915.

Sincerely yours,

Ralph W. Siskind
Attorney, Legal Branch
